

Collective Handle Protection

Designed to shield the pilot's collective handle from any disturbances coming from the passenger cabin. As an improvement on earlier products, it has been outfitted with a vibration dampener at the point of attachment with the collective handle's structural provision.

Collective Handle Protection

<i>p/n</i>	TPS350-00800-1000-00
<i>Material</i>	Aluminium 5753
<i>Dimension LxWxH</i>	84.0 x 31.0 x 45.0 cm
<i>Structure Weight</i>	3kg
